REPORT 2017-18

Project work

Variation of LFT in liver diseases
Effect of hormones on female infertility
Comparative study on various biochemical parameters in early stage infection of Hepatitis A virus (HAV IgM)
Study of hypothyroidism in different age groups
Evaluation of antimicrobial activity of the medicinal plant <u>Begonia</u> <u>live</u> <u>herbal</u>
Study of serum urea & creatinine level in type II diabetic and Non diabetic patients

PROJECT WORK

2016-17
